

SCREW MACHINE PRODUCTS

By now, you know SDP/SI has one of the largest inventories of stock drive components in the business. But sometimes a stock component will not do and a custom part is necessary. Don't despair, SDP/SI is a manufacturer of custom screw machine products, making us your complete stop for all your drive component needs.

Our state-of-the-art CNC multi-axis and CNC swiss style turning machines are capable of turning out large quantities of custom designed shafts, gears, sprockets, screws or any other customized parts our inventive customers dream up.
